Subject: RE: Nafion BP1 and BP2

I am just solubilizing it this week. I will let you know when I get done with it. I had a large backlog of samples from other projects to get to.

Hi Mark,

We're about to start work on the Nafion by-products. Did you pursue determining parameters for Nafion BP1?

Thanks,

Scott

We infused a water extract and could only make Nafion BP2 work. I will share that with you as soon as I can get over to the lab. For Nafion BP1 I do not have any transitions yet.

Hi Mark,

What transitions are you using for these on the tandem quad?

Great news Lam. Do you know how many mgs you can ship? I need to share them with Scott Sivertsen in R4 asap. I look forward to getting them and working with them.

Mark

Hi Mark,

If all goes according to plan, I should be able to send mg quantities of both to you early next week. Can you please provide me with your shipping address? Thanks.

Best,

Lam

Subject: Nafion BP1 and BP2

Hi Lam,

Any word on sharing the Nafion BP1 and BP2 standards after the meeting in NC with Chemours and NCDEQ/NCDHHS?

I could really use it to answer some key questions about quantitation and instrument response.

Mark
